

OAuth connection updates

New connections:

FI name	FI ID	FI status	Legacy FI
Michigan First Credit Union	177712	Beta	6267
Suncoast Credit Union	177526	Beta	8741

We have enabled a new OAuth connection with **Michigan First Credit Union** – FI ID 177712, and **Suncoast Credit Union** - FI ID 177526. These institutions are a replacement for the legacy connections 6267, and 8741.

During this time, we invite you to allow your users to add accounts, at your discretion. We will continue to monitor this connection closely until we have enough data to confirm that there are still no known issues.

- Connect Full partners: Your customers should already see this institution in Connect Search, as it existed previously under the legacy institution name. Users that add new accounts will be sent to the OAuth connection, while legacy users will be able to continue to add accounts on legacy
- Connect Lite partners: You may need to use the Financial Institution ID in place of the legacy FI ID in your user experience

Status change:

FI Name	FI ID	FI status
Taekus	177616	Online

We have enabled a new OAuth connection with **Taekus** – FI ID 177616

- Connect Full partners: Your customers should see this institution in Connect Search immediately
- Connect Lite partners: You may need to add Financial Institution ID 177616 to your user experience
